### Violence From Radical Groups

In Kenya, over 80 percent of the population identify as followers of Christ. Muslims make up a mere 10 percent of the population, however, many Islamic extremist groups have formed in response to their minority status. There have been reports of these radicalised groups going from house to house, finding Christians and taking their lives.

### Prayer Points

- Pray for Christians to experience joy and hope in the midst of pressure.
- Pray for Islamic extremists, that they will meet Jesus and find repentance.
- Pray for Christian politicians to have the courage to speak out against corruption and persecution.
