## A Changing Country

The overarching goal of China's Communist Party is to maintain power through national unity and limiting outside influences in any way possible. If the government decides the church is a threat, life will get much harder for Christians. The church continues to grow and has pledged to send out 20,000 missionaries by 2030.

## Prayer Points

- Pray for the government who wants to control the church. Pray that they understand true freedom in Christ.
- Pray for local Chinese Christians to reach out to minority groups in Xinjiang and Tibet.
- Pray that young Christians would understand the value of Christ above all else.
